# Week 9: Coding Assignment

URL to GitHub Repository:

https://github.com/catherineosborn/week9Assignment

URL to Your Coding Assignment Video:

Instructions:

- In Visual Studio Code, write the code that accomplishes the objectives listed below and ensures that the code compiles and runs as directed.

- Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository.

- Include the URLs for this week's repository and video where instructed.

Week 9: Coding Assignment

- Submit this document as a .PDF file in the LMS.

Coding Steps:

- Create a new website using HTML and Bootstrap. The website must include the following:

  - **At least 2 pages.**

  - A Bootstrap navbar, table, and form.

  - Bootstrap grid used throughout to format elements

    - Elements should stack vertically when the window is small

Video Steps:

- Create a video, up to five minutes max, showing and explaining how your project works with an emphasis on the portions you contributed.

- This video should be done using screen share and voice over.

- This can easily be done using Zoom, although you don't have to use Zoom, it's just what we recommend.

  - You can create a new meeting, start screen sharing, and start recording.

  - This will create a video recording on your computer.

- This should then be uploaded to a publicly accessible site, such as YouTube.

  - Ensure the link you share is **PUBLIC** or **UNLISTED**!

  - If it is not accessible by your grader, your project will be graded based on what they can access.
